containers in smooth wall aluminium (ALbn)

> smooth wall aluminium containers (ALbn)

Our SMOOTH WALL ALUMINIUM containers manufactured from lacquered foil are thermo-sealable and constitute an essential element of the COMPAC SYSTEM together with the tray sealers and the sealing film reels.

Our containers are suitable for food packed in modified atmosphere with a long shelf life.

Available in white colour inside and black outside to enhance your product presentation.

Technical properties of our containers (🍴)

- suitable for pasteurisation and sterilization;
- excellent resistance to aggressive chemical agents, to organic and inorganic substances (including oil, fat, high salt or acid content etc...) and an excellent physiological behaviour (odourless, flavourless);
- providing the **best possible** barrier to gas for food with a long shelf life;
- ideal for ready to **cook** products and for reheating in microwave oven and traditional oven up to +200° C for 40 minutes;
- a sealable roasting pan: suitable for cooking food at a maximum temperature of 200°C for 40 minutes, the container can be sealed straight after;
- suitable for frozen food;
- our ALbn containers can go directly from the freezer to the oven.

To identify and help material sorting, our containers are marked with the following symbol: 

This range is part of the Compac *Rline* .

When collected, the containers can be recycled.
